15-292 History of Computing Computing in the 1800s: Charles Babbage and Herman Hollerith Based on slides originally published by Thomas J Cortina in 2004 for a course at Stony Brook University Revised in 2013 by Thomas J Cortina for a computing history course at Carnegie Mellon University Jacquard Loom Developed in 1801 by

Bead Society of Great Britain, No. 61, Dec., 2001

instructions written down We agreed that I would do the writing and she would provide the pictures We were fortunate that the second publisher we contacted was interested — his wife was a weaver — and the book, Beads & Threads (now sadly out of print), was published in 1995 Some 25,000 copies were sold Helen has now just

An with Richard Lehman

Lehman be the second D/OCI, and he really was the man who built the place He built an empire while he was at it, because OCI had its own security, its own courier service, its own print shop, and a lot of other things that were all justified by the fact that communications intelligence needed special handling And so he really had a self-contained operation This enabled him over the few years after that

Name: AP Language - Covington Catholic High School

- You can see that I haven't gone crazy with highlighting or underlining—if every line is marked up, you'll have a hard time making sense of your notes Instead, I've noted key phrases and emphasized sections that seem to relate to themes or greater meanings
